

Speaker Profile:

Scott Morrison

Scott is a Partner in PwC's ESG Reporting & Assurance practice. Through his experience working in Canada and internationally, he has gained a wealth of knowledge on sustainability risks and opportunities affecting businesses in multiple industries, allowing him to bring practical solutions in helping his clients navigate this rapidly evolving space.

With a focus on the financial sector, Scott has assisted leading organizations in building trust around their sustainability performance and worked with clients to help meet their non-financial assurance needs. His expertise includes engagements on a variety of ESG topics including GHG emissions, IFRS Sustainability Standards, TCFD, Scope 3, and sustainable finance. In addition, Scott has led a variety of engagements involving reporting system implementation, providing both advice and assurance readiness assessments.

Scott sits on the AASB's Sustainability Advisory Committee, helping to advise Canada's standard setters in shaping the future of sustainability assurance. He is an active contributor and developer of PwC's thought leadership pieces, mostly recently around the impact of ISSB developments, ESG reporting insights, and sustainable finance.

Scott is a frequent speaker at ESG events/conferences.

Scott also leads PwC's ESG recruiting team and is actively involved in shaping the future for ESG talent. He holds his CPA, CA designation and graduated from Wilfrid Laurier University with a business degree.
